PROFESSIONAL PROFILE

A results-driven **Accounting, Audit & Asset Valuation Specialist** with **30+ years of experience** delivering high-quality financial control, valuation, and systems audits across **public, private, and NGO sectors** in Nigeria, the UK, and Africa.

Currently **Product Lead at Lewisham Multi Solutions Ltd (RC 1211948)**, I combine deep financial governance expertise with systems auditing and digital innovation to help clients achieve **IFRS-aligned asset valuations**, accurate reconciliations, and sustainable internal controls.

My cross-functional background spans **retail banking, oil & gas, health, manufacturing, corporate auditing, software development**, and **international NGOs**, where I've led valuation and audit teams to ensure full compliance, transparency, and efficiency in asset management.

CORE COMPETENCIES

- IFRS Compliant Asset Valuation & Reconciliation
- Financial Audit & Forensic Examination
- Internal Controls & Process Automation
- Fixed Asset Register Review & Condition Assessment
- Enterprise Risk Management & Governance
- Cost Reduction & Operational Efficiency
- NGO Grant Accounting & Donor Compliance
- Business Systems Auditing & IT Governance
- Data Analytics for Financial Verification (Power BI, SQL, Python)
- Leadership & Team Coordination (McKinsey Forward Certified)

SELECTED ACHIEVEMENTS IN AUDIT & VALUATION

- **Led Asset Reconciliation & Valuation Projects** across multiple organizations (2020–2025), covering physical verification of movable & immovable assets across 37 warehouses and 6 regional offices in Nigeria.
 - Delivered full IFRS-aligned asset valuation reports.
 - Conducted condition assessment, tagging, and valuation using standardized methodologies.
 - Coordinated reconciliation between client fixed-asset register and physical verification.
 - **Enhanced IFRS reporting** for NGOs and private clients by implementing digital asset registers integrated with Power BI dashboards.
 - **Recovered ₦155 million** in unrecorded or undervalued assets for Sevico Manufacturing Ltd through process automation and valuation control review.
 - **Improved accounting accuracy** at Spectrum Associates (UK) and Apex Eagle-Eye Nigeria through forensic auditing and reconciliation frameworks compliant with IFRS and FRCN standards.
 - **Designed an Asset Management System Prototype** (see [YouTube demo](#)) supporting automated valuation, tagging, and reporting workflows.
-

RELEVANT PROFESSIONAL EXPERIENCE

Lewisham Multi Solutions Ltd (Nigeria / UK) — Product Lead & Senior Audit Consultant 2012 – Present

- Directs the company's **Asset Valuation & Management Service**, overseeing audit and reconciliation teams.
- Leads technical delivery in compliance with **IFRS**, **ICAN**, and **CIPFA** standards.
- Supervises field valuers, data analysts, and accountants for large-scale physical verifications (up to 5,000 items per cycle).
- Coordinates data gathering, valuation modeling, and fixed-asset register reconciliation for NGOs, corporates, and government clients.

- Provides assurance on **asset control processes, depreciation schedules, and impairment reviews.**

Apex Eagle-Eye Nigeria — System Auditor / Financial Analyst 2012 – 2018

- Conducted **systems audits and valuation exercises** within petroleum logistics and security management systems.
- Improved internal control frameworks and reduced asset discrepancies by 40%.
- Ensured IFRS-aligned valuation and documentation for physical infrastructure and equipment.

Sevico Manufacturing Ltd — Principal Manager (Product & Finance Automation) 2018 – 2019

- Digitized manual production accounting systems, integrating asset management modules.
- Reduced energy waste costs from ₦13 M to ₦5 M monthly; recovered ₦155 M from financial discrepancies.

Spectrum Associates Ltd (UK) — Financial Accountant & Business Development Manager 2005 – 2012

- Maintained fixed-asset registers, led internal audits, and coordinated statutory audit preparation.
- Supported external auditors (PwC UK) in IFRS conversion and valuation exercises.
- Oversaw capital budgeting, inventory control, and reconciliation across retail and telecom divisions.

Zenith Bank Plc — DevOps Banking Officer / Finance Analyst 1992 – 2003

- Administered core banking systems, ensuring data integrity and audit trail compliance.
- Supported internal audit teams on reconciliation of fixed and current assets.
