- ❖ **Technical & Analytical:** ERP/SAP/PeopleSoft, Sage, QuickBooks, Oracle databases, business analysis, requirements documentation, process automation, DevOps
- ❖ **Governance & Compliance:** SOP development, internal controls, documentation, audit readiness, risk management

PROFESSIONAL EXPERIENCE

Group Country Product Management Expert

Helpful Hand Initiative (HHI) – Nigeria/Africa | Dec 2023 – Present

- ❖ Spearhead end-to-end product lifecycle for a multi-portfolio education and social impact programme, achieving 35% year-over-year revenue growth and 38% market share increase for one client.
- ❖ Implement Agile methodologies to streamline delivery, reducing time-to-market by 55% and improving cross-functional team efficiency.
- ❖ Collaborate with government, NGO, and private sector partners to define programme features, prioritise deliverables, and align outcomes with business and beneficiary needs.

Product Manager / Product Owner / Senior Business Analyst

Lewisham Multi Solution Limited | May 2012 – Present

- ❖ Led business development and partnership initiatives managing portfolios exceeding ₦100B, sourcing financing and structuring deals to improve cash flow and investment outcomes.
- ❖ Designed and deployed digital transformation solutions for education and healthcare clients, increasing revenue from ₦110M to ₦305M in Q1 post-implementation by automating payment and enrolment processes.
- ❖ Developed SOPs and internal controls that reduced financial leakages and improved compliance, increasing monthly profit from ₦71M to ₦169.5M.

Scrum | Product Owner

Digital Concept Ltd | Dec 2022 – Dec 2023

- ❖ Managed stakeholders and Scrum teams to deliver an Enterprise University Student Paperless Portal serving 1000+ students, covering admissions, e-learning, exam records, and payment scheduling.
- ❖ Reduced manual processes by 80% and improved data accuracy, contributing to better enrolment tracking and operational efficiency.

Principal Manager – Product Development

Sevico Manufacturing Ltd | Oct 2018 – Sep 2019

- ❖ Spearheaded business process automation, converting manual operations into digital workflows and reducing monthly energy loss costs from ₦13M to ₦5M.
- ❖ Implemented robust documentation and reporting processes, improving audit readiness and recovering ₦155M in trapped funds.

System Auditor | Project Lead

Apex Eagle-Eye Nigeria | May 2012 – Oct 2018

- ❖ Led development and deployment of a Pipeline Product Surveillance Security Management System and Team, reducing product theft and increasing client revenue by 879% (₦27.3B to ₦267.4B).
- ❖ Managed stakeholder engagement with government and private sector partners for compliance and operational rollout.

Business Development Manager

Spectrum Associate Ltd – London, UK | Jan 2009 – Apr 2012

- ❖ Built and maintained relationships with mobile importers, multinationals, and retail partners, exceeding sales targets for devices, appliances, and recharge credits.
- ❖ Represented the company in high-level partner meetings and media presentations.

Accountant & Business Development Consultant

Fair Accountancy | Feb 2003 – Jan 2009

- ❖ Managed asset valuation and management for SME and public sector clients, ensuring accurate reporting and compliance with UK financial standards.
- ❖ Delivered systems accounting using ERP platforms including Sage and QuickBooks, streamlining financial operations and reducing processing time by 40%.

- ❖ Coordinated housing benefit administration for local government councils and supported NHS outpatient service user recovery programmes, integrating beneficiaries back into the community.
- ❖ Liaised with local authorities, NHS trusts, and clients to ensure compliance, accurate fund disbursement, and improved service delivery.

DevOps Engineer

Zenith Bank Plc | Sep 1992 – Feb 2003

- ❖ Managed deployment, monitoring, and maintenance of core banking systems and infrastructure, ensuring 99.9% system uptime across branch networks.
- ❖ Automated operational processes and system workflows, reducing manual intervention and improving transaction processing speed.
- ❖ Collaborated with IT, operations, and compliance teams to implement system upgrades and maintain audit readiness.

KEY ACHIEVEMENTS ALIGNED TO NGO MANDATE

- ❖ **Revenue & Enrolment Growth:** Delivered digital payment and admissions platform that increased education-linked revenue by 177% and improved student access to services.
- ❖ **Operational Efficiency:** Reduced manual processes and costs by 50-80% across education, manufacturing, and security projects through automation and SOP implementation.
- ❖ **Stakeholder Management:** Managed multi-party engagements with government, corporate, and NGO partners, ensuring timely delivery and sustained collaboration.
- ❖ **Data-Driven Impact:** Built dashboards and reports using Power BI and SQL to track KPIs, monitor outcomes, and support evidence-based decisions for executive stakeholders.
