Executive Summary

The Garment Recycling Project (GRP) is a pioneering initiative by Lewisham Multi Solutions Ltd (LMS) that aims to transform Africa's textile waste crisis into a sustainable economic opportunity.

Situated in Ukwani, Delta State, Nigeria, the proposed factory will convert used and unsold garments into high-quality, eco-conscious fashion products.

We are seeking an investment of \$5 million to establish production infrastructure, build a talented team, launch market initiatives, and scale operations across Africa.

Projected ROI is 30% within 3 years, with a 20% annual growth rate.

Project Location

Ukwani, Delta State, Nigeria – Strategically located with access to raw materials, human capital, and distribution networks across West Africa.

Problem Statement

Over 92 million tons of textile waste is generated globally each year.

Africa has become a dumping ground for used clothing, crippling local industries and polluting environments.

Our Solution: The Garment Recycling Model

Our three-phase system:

1. Collection & Sorting
2. Processing & Upcycling
3. Finishing & Branding

This circular model blends technology, local craftsmanship, and eco-conscious branding to create a sustainable African fashion brand.

Processing Breakdown

- A. Sorting to Carding (Shredder, Baling, Carding Machines)
- B. Spinning to Weaving (Spinning Machines, Looms)
- C. Finishing (Dyeing, Sanforizing, Calendaring Machines)

Estimated Equipment Cost: \$531,000 – \$873,000

Market Opportunity

Africa's fashion market is projected to reach \$15.5B by 2025.

Nigeria alone expected to hit \$1.92B by 2027.

Sustainable fashion remains a niche market with high potential.

Revenue Streams

- Product Sales: 50%
- Designer Collaborations: 20%
- Workshops & Learning: 15%
- Grants & Green Funding: 15%

- **Revenue Streams Include:**

- Product Sales – Upcycled clothing and accessories – 50%

- Designer Collaborations – Commission-based partnerships with local creative – 20%
- Workshops & Online Learning – Paid training and upcycling education – 15%
- Grants & Green Funding – Support from sustainability-focused donors and institutions – *15%.

Revenue Streams & Sustainability

Financial Projections

Year 1: \$2.0M (10% ROI)

Year 2: \$2.7M (20% ROI)

Year 3: \$3.4M (30% ROI)

Projected Cash Flow Table (Year 1–3)			
Category	Year 1 (USD)	Year 2 (USD)	Year 3 (USD)
Initial Investment	5,000,000	-	-
Revenue			
Product Sales	1,000,000	1,500,000	2,000,000
Designer Partnerships	400,000	500,000	600,000
Workshops & Online Learning	300,000	400,000	500,000
Grants & Green Funding	300,000	300,000	300,000
Total Revenue	2,000,000	2,700,000	3,400,000
Operational Costs			
Supply Chain & Logistics	600,000	700,000	800,000
Staff & Artisan Salaries	500,000	600,000	700,000
Marketing & Branding	300,000	350,000	400,000
Platform & Tech Development	200,000	250,000	300,000
Workshop/Training Expenses	100,000	120,000	150,000
Total Expenses	1,700,000	2,020,000	2,350,000
Net Cash Flow	300,000	680,000	1,050,000

Growth Projections

Financials & ROI Investment & Growth Projections

We are seeking a \$5 million strategic investment to drive the launch and scale-up of the Garment Recycling Project across key markets in Africa. This capital will fund infrastructure, talent acquisition, logistics, marketing, and community empowerment programs.

With a 20% projected annual growth rate, our revenue is expected to climb from \$2 million in Year 1 to \$3.4 million by Year 3, driven by diversified income streams and market demand for sustainable fashion.

We are confident in delivering a 30% Return on Investment (ROI) within three years, underpinned by strong cash flows, lean operations, and reinvestment in local supply chains.

Visual suggestion:

Line or bar graph showing projected revenue growth:

Year 1: \$2M

Year 2: \$2.7M

Year 3: \$3.4M

ROI arrow or marker showing a 30% rise from base investment line.

Break-even: Within 18–24 months

Social & Environmental Impact

- ✓ People: Jobs, skills, empowerment
- ✓ Planet: Waste reduction, eco-conscious fashion
- ✓ Profit: Sustainable and scalable

Partnerships & Community Engagement

- Partnering with designers, artisans, NGOs
- Training workshops
- Community reinvestment programs

Why Invest?

- First-mover advantage in eco-fashion
- High social & environmental ROI

- Scalable business model
- Trusted implementation by LMS

Call to Action
